

# LocDown™

by  MARKS USA®

**For added safety in an emergency, teachers can lock their classroom doors from the inside with the Loc-Down™ Series Classroom locks by Marks USA.**

- The exterior lever is disabled by operating the interior lock cylinder
- Affordably add one door at a time when time & budgets permit

Typical Classroom function cylindrical locksets are designed to be locked or unlocked from the exterior, with the interior always in an open position. The new Loc-Down™ Classroom Intruder Lockset by MARKS USA, is designed to be locked or unlocked from the exterior, always open on the interior, but allows in emergency life safety situations, the teacher to secure the classroom without stepping into the hallway to lock the outside handle.

## F110 CLASSROOM INTRUDER:

Deadlocking latch by knob/lever either side, except when outside locked by key inside. Key outside locks or unlocks outside. Inside always open

DB

- At the first sign of trouble outside, lock down a classroom instantly
